3U Active Fan Module for mounting angle 482.6mm

powerful axial fans can be installed in either a "blowing" or "extracting" arrangement. The rain canopy function of the ventgrille protects against both mechanical damage and penetrating dampness.

A Guide frame hood to achieve protection category is easy for making filter change. The design Active fan units boast a decisive advantage-the quick-fit assembly system for fan and filter units and outlet filters simply snap into place and voila.
